Employee Solutions Becomes Only Non-Subscriber to Earn Elite ASA/RCS Workers' Compensation Risk Certification

Employee Solutions announced today that they have now been awarded Workers' Compensation Risk Certification (WRC) through Risk Control Services (RCS).

The WRC program recognizes staffing companies that practice best in class risk management to reduce workplace injuries and related costs. WRC certified companies maintain that a focus on safety and risk management protects their employees while offering a higher level of service to clients.

"Becoming the only non-subscriber in Texas to earn a WRC Certification is validation of what we already knew about our company. Employee Solutions maintains a best in class risk management program that protects our employees and clients, as well as our company by proactively focusing on the safety of our employees. This focus is achieved all while seeking continuous improvement in every aspect of our program," said David Bristol, CEO of Employee Solutions.

To be awarded certification, companies undergo a thorough review of their operational practices as they apply to hiring and screening, substance abuse, talent matching, employee orientation, client safety evaluations and partnerships, incident investigations and corrective measures, and return-to-work programs. The results are compared against a system of best practices developed by an advisory council of insurance carriers, insurance brokers, and staffing industry risk managers.

Information about WRC certification is published on the program's Web site at staffingWRCs.com.

About Risk Control Services (RCS)

RCS is a Staffing Industry specific Risk Management consulting firm founded in 1990 with over 1000 client companies in 4000+ locations across the continental U.S. RCS acts as the Risk Management provider for multiple A+ rated insurance companies writing insurance in the staffing space, in addition to partnering with The American Staffing Association (ASA) on the WRC Certification initiative.
